Exterior Solar Screens

SunStopper Shade Systems offers you four models of custom made, on-demand retractable awnings. Our shades are custom built and designed to blend with the look of your home. From exterior cassettes to zip screens, we've got the right screen for you.

4" Exterior Cassette

This model is our entry level exterior retractable cassette screen which can be ordered motorized or manually operated. The 4" Cassette Screen can be constructed up to 13' wide with up to 11' drop in 1/8" increments. This model features standard duty guide tracks or can be ordered with cable guides. The 4" Cassette Screen can be surface or recessed mounted and is available in white, brown or camel hardware.

4.5" Semi Cassette

This model is manually operated with the turn of a crank handle. The 4.5" Semi Cassette Screen can be ordered up to 16' wide with up to 10' drop. This model features standard duty guide tracks or can be ordered with cable guides. The 4.5" Semi Cassette can be only ordered for surface mounting and is available in white, brown or camel hardware.

4" & 5" Heavy Duty Screens

Heavy duty screens provide the ultimate in indoor comfort and solar protection. The SunStopper line of exterior mounted, cassette box style retractable solar screens will block up to 97 percent of the sun's damaging UV rays and heat from entering your home. This solar shading solution is even more effective than interior mounted shades, reducing air conditioning costs by as much as 40 percent and lowering room temperatures up to 20 degrees!

4" & 5" Zipper Screens

Are you interested in an outdoor living space that is safe from insects, the wind, and sun glare? The SunStopper Zipper solar shade and insect screen is perfect for you. It is designed to be mounted on the exterior of your commercial or residential property and will provide you with a cool, insect-free environment. The Zipper solar shade and insect screen provides UV protection for your outdoor furnishings and allows you to enjoy the beauty of the outdoors in privacy and security.

Interior Roller Shades

All SunStopper shades are custom built and designed to blend with the look of your home. Their strong and rugged construction makes them ideal for daily use in busy environments and can greatly reduce cooling cost offering you a greener environment.

Master the Sun

Enjoy the effective energy and light control of retractable solar shades while maintaining your beautiful view. Interior mounted SunStopper shades will not only reduce your cooling costs and manage ambient light, but will also stop the sun's damaging effects on your furniture, carpets and valuables.

For the maximum "green" solution, automate your shades!

Integrate our wireless sun and room temperature sensors into your motorized shades and they will operate flawlessly during high sun periods to reduce direct light and glare. Because our shades are fully retractable, you determine when you need them to perform! With SunStopper shades you'll be able to enjoy your view without the harsh direct sun.

PRODUCT FEATURES

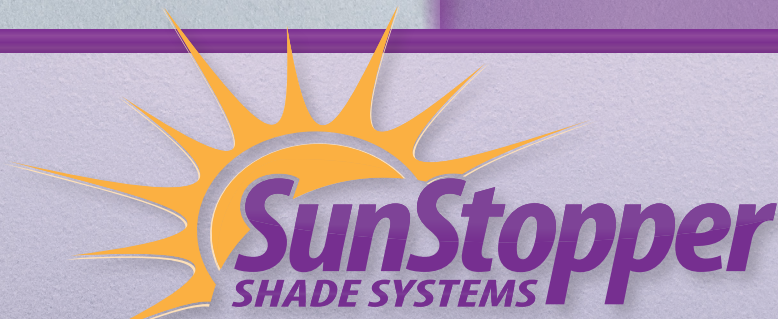

ELECTRONIC ACCESSORIES

SunStopper retractable shading systems are available in a variety of options to meet your needs. For interior applications, we offer battery and solar powered motors to whisper quiet hard wired motors. For exterior applications, we utilize weather resistant motors to provide you with years of trouble-free operation. We incorporate industry leading Somfy motors, which are designed to tie into home automation systems as well as function with optional wireless light & heat sensors, greatly increasing the effectiveness of your shading system.

WIDE SELECTION OF COLORS & STYLES BY PHIFER

We offer fabrics in a wide variety of colors and openness factors that will provide the sun and light control that best meet your needs and blends harmoniously with your décor.
